Figure 1 shows a 5x10 grid of squares. Each square contains a circle. The grid is divided into two 5x5 sections. The left section has columns labeled 1-5 and rows labeled A-E. The right section has columns labeled 6-10 and rows labeled A-E. The circles are arranged in a pattern that suggests a 5x5 grid of 25 circles, with the remaining 25 squares being empty.

Figure 1 shows a 5x10 grid of squares. Each square contains a circle with a dot in the center. The grid is divided into two 5x5 sections. The top section has columns labeled 1-5 and 6-10, and rows labeled A-E. The bottom section has columns labeled 11-15 and 16-18, and rows labeled A-E. The circles are arranged in a pattern that suggests a 5x10 grid.
